URGENT LEGISLATIVE MEMO

SAY NO TO RHODESIAN CHROME

SAY YES TO HOUSE BILL H.R. 1868 - RESTORE U.S. ECONOMIC SANCTIONS AGAINST RHODESIA.

All of southern Africa is in turmoil.

The freedom movements in Angola, Mozambique and the Republic of Guinea-Bissau are pushing harder than ever for full independence.

The Republic of Guinea-Bissau, already recognized by 81 nations, will be seeking admission to the United Nations in September against possible resistance of the U.S.

Prime Minister Ian Smith of Southern Rhodesia has just flown to Pretoria to confer with Prime Minister Vorster of South Africa.

Related to all this is the impending vote in the House of Representatives on Bill H.R. 1868 - to restore U.S. economic sanctions against Rhodesia.

Passage of the bill will complete the half-victory of the Senate's affirmative vote of last September.

Rejection of the bill will strengthen the forces of reaction and the whole racist regimes of Rhodesia and South Africa.

Under the barrage of well-heeled high-pressure lobbying of Union Carbide and other multinational corporations some of the previously committed congressional support is weakening.

The final push is on. The voices of you and your friends could make the difference:

- a card
- a letter
- a telephone call
- a telegram

to your congressman

and to Rep. Thomas O'Neill (Dem.) House Majority Leader
Rep. Thomas Morgan (Dem.) Chairman, House Foreign Affairs Committee

House Office Building
Washington, D.C. 20515

And of course, a dollar or two would really help in this campaign.
