STOP APARTHEID
YOU CAN HELP!
We urge our friends abroad to enact comprehensive and mandatory sanctions and call on international companies like Royal Dutch/Shell...to end their economic support for apartheid and leave South Africa. We support actions by the U.S. religious community and others in support of full economic sanctions and complete corporate withdrawal from the land of apartheid.

Archbishop Desmond Tutu

I pledge not to purchase Royal Dutch/Shell products or the products of its subsidiaries until Royal Dutch/Shell severs all economic ties to apartheid South Africa.

SIGNED,

WHY SHELL?
The boycott of Royal Dutch/Shell is part of a worldwide effort to bring about peaceful change in South Africa by ending international economic support for apartheid. Shell is one of the most important suppliers to the South African government of materials essential to the maintenance of apartheid. Shell fuels the police and military with crucial oil and petroleum products (South Africa has no oil of its own), Shell owns South Africa's largest oil refinery and Shell exports key South African goods, particularly coal. Instead of joining peaceful efforts to end apartheid, Shell is helping to prolong the struggle against injustice in South Africa.

WHAT YOU CAN DO:

1. TAKE IMMEDIATE ACTION: detach, sign, stamp and send your Shell No-Purchase Pledge.

2. PUBLICIZE YOUR COMMITMENT: display the No-Purchase poster inside this flier. Encourage others to pledge no purchase and join the boycott.
