Re: The West Coast Link and Other Matters

Dear Congressman:

We understand that you are on your way to Africa this Saturday. We wish you a safe journey and success in your endeavors there. We wanted you to have a copy of a study on the so-called "black and black" violence in South Africa (an extensive and complete study made by a member of the Friends of the ANC, Surendren Moodliar) before you left, in hopes that you may have time to look at it on your way or during the trip.

I need to mention that to date I still have not heard anything from Marva Jo Camp and so our "link" is really not yet complete.

Michael Lapsly will be visiting our area November 10 through 15. The Friends of the ANC are planning a reception for him Sunday, November 10. You may recall that Michael is an ANC activist whose hands were blown off by a mail bomb in Zimbabwe. We would like to invite you and your staff to participate in this.

In addition, I have enclosed a copy of a joint letter from the Friends of the ANC and the West Coast Link to Ambassador Schwarz in answer to his letter basically stating that the problems in South Africa were over and asking for a "friendly" relationship with us. Also I have enclosed a copy of a newspaper article regarding three local cities which have decided to maintain sanctions against South Africa and a possible test case by the U.S. Secretary of State against these cities.

We look forward to hearing from you on the above matters.

Very truly yours,

Mimi Lewis
