

Pro Apartheid, Racist, Terrorists Burn Shanties

The Terrorist Attack On The Non-Violent Shanties incorporates the same brutal tactics as those used on the Black South Africans by the White Minority regime. This display of violent force is proof that racist violence is practiced here, and that we are not just fighting an abstract battle miles away. We are fighting against racist oppression here and around the world, including the oppression of the Black South Africans, the Native Americans, and the Hawaiian people. The burning of the Shanties concentrates the same mentality which lashes out against all oppressed people, especially those who are seen as a threat to their oppressors. The Shanties were a threat to all RACIST supporters of APARTHEID just as the the Black South Africans are a threat to the APARTHEID Regime.
