*“A Golden Collection and Statement  
In Support of Freedom, Human Dignity and  
Self-Determination”*

**Special Limited Edition  
3 Days Only!**

**— A Special Invitation —**

Dear Friend:

You are cordially invited to participate in ART AGAINST APARTHEID<sup>®</sup>, a citywide event that recognizes the situation in South Africa as one of the most monumental injustices and, as it worsens, one of the most serious threats to peace in our time.

Apartheid is the cornerstone of a South African government policy whereby 26 million Blacks, who make up more than 80% of the population are denied their democratic and human rights. This doctrine of racial separation keeps Black South Africa land poor, food poor and technology poor, with 50% of Black children dying before the age of five. Black South Africans still cannot vote and must carry government-issued passbooks for permission to go anywhere or do anything. It is against the law for Blacks and Whites to receive equal pay for equal work. South Africa illegally occupies Namibia (South West Africa) and seeks to destabilize the independent nations on its border.

Without the support of the U.S. government and business, reinforced by President Reagan's policy of "constructive engagement," apartheid would not survive. The majority of the world's nations, in solidarity with the South African people's defiant struggle to liberate their land from the tyranny of the apartheid regime, are not continuing "business as usual" with South Africa. They and we seek its political, economic, and cultural isolation.

As artists and leaders in higher education working in the United States, we feel compelled to wield the power of our creative and humanistic vision as a weapon against apartheid. **ART AGAINST APARTHEID<sup>®</sup> is a series of exhibitions and cultural events to be held throughout the five boroughs of New York City in OCTOBER 1984.**

Here at **Hunter College**, the Student Government and Art Against Apartheid<sup>®</sup>, have teamed up to bring to you the best selections of the state-wide art exhibitions. This relationship underscores the active concerns of American students on global injustice and repression. Indeed, here in the City University of New York, students moved the governing Board of Trustees to divest monies under their control from corporations investing in apartheid South Africa. We applaud our University Leaders and are proud to say that Hunter College served as the base of operations for the CUNY-Wide movement in support of divestiture. So come and join us. Bring the children and treat yourself to a visual experience that is relevant to the times and conditions that will shape our future...

## ART AGAINST APARTHEID<sup>®</sup>

at Hunter College
