Our Principles of Unity:

Art Against Apartheid is a group of artists who formed to support the liberation struggles in South Africa and Namibia.

We believe that art plays an intricate part in Society. In working collectively, we will contribute to the struggle against apartheid by educating our communities and ourselves.

We recognize the similarities and connections between apartheid in South Africa and racism, poverty, sexism and multi-national corporate exploitation in the USA as well as globally.

As artists we believe that culture is a vital base through which people express their right for self-determination throughout the world.

Please check the literature tables

Lets come together

We're the city by the bay, destined to take its place
In this land of opportunity.
There ain't nothing we can't do, when we let
His love shine through.
So let our hearts beat as one cause,
There's work to be done, make our homes a better place
To live (we've got to).

Chorus: Come together showing love for your brother
(1) Give someone a helping hand (we've got to)
Come together caring for one another
(Talkin' to) O-A-K-L-A-N-D

Chorus: Come together showing love for each other
(2) Show your sister that you care (we can do it)
Come together we need one another
Here's your opportunity.

Love is you, love is me, its a reflection of our com-
munity,
That family in need the child that has not bread, oh
We've got to show our brother that we care.
Open up your heart and lend a helping hand. Divided
We fall, but together we can stand.

Special chorus:

We are Oakland working in oerfect harmony
Show that you care and give to those in need,
Oh! We are Oakland building a better community
(We can do it) All we need is unity.
