Did you know that...

South African Airways has a daily flight at 7:30 p.m. from the British Airways terminal to Johannesburg?

South African Airways is owned and operated by the apartheid government and that it is a multi-million dollar operation and a source of revenue and propaganda for the South African government?

South African soldiers are transported by South African Airways to fight in Angola and Namibia and to repress uprisings in the townships of South Africa?

South African Airways flies the ambassadors of apartheid, entertainers who don't support the cultural boycott, tourists, and businessmen who profit from and aid the apartheid system?

- APARTHEID WILL END

Join the divestment campaign.
Boot South African Airways out of Kennedy Airport.

What you can do:

Let South African Airways know that no representative of the apartheid government is welcome here. Call them at 212-826-0995. Express your outrage.

Let British Airways know that by being the handling agent for S.A.A. they are collaborating with apartheid. Tell them you'll boycott their airline until they boot South African Airways out.
