A LUTA CONTINUA

THE STRUGGLE CONTINUES

A LUTA CONTINUA was made by an Afro-American film team inside Free Mozambique with FRELIMO in 1971.

The film presents historical background on Portuguese Colonialism in Africa and analysis of the various economic interests with a stake in the maintenance of the status quo in Southern Africa. It also illustrates the various dimensions of the revolution, including how FRELIMO provides health, educational and social services to the people living in the liberated areas. The film also contains combat footage of a Portuguese offensive.
