ENGELHARD MINERALS AND CHEMICALS is having its annual stockholders meeting on May Day, WEDNESDAY, May 1.

10 a.m.

at the Robert Treat Hotel
50 Park Place
Newark, New Jersey
(downtown Newark)

Some placards will name the individuals associated with Charles Engelhard who perpetuate the Engelhard economic empire. Engelhard alone does not realize all the profits; many others share the benefits derived from exploitation, and these will not be neglected.

A Bus will leave at 9:15 a.m. from Amsterdam Avenue and 116th St. to go to the demonstration. It will return by 12:30. No charge.
Today in Newark, Engelhard Minerals and Chemicals deals in the same way with non-whites in South Africa, Newark, Japan and Mexico. Not with the threat of military force, but with good old Yankee ingenuity.

Why is Engelhard establishing the Engelhard Foundation in Newark? What does its purpose of "serving the community" mean for the aims of Newark blacks?

For what reason did Charles Engelhard accompany President Johnson on his "around the world" trip? Is there a connection between Engelhard's long-standing support of Johnson and the Democratic party and the charge, made by Senator Williams of Delaware, that the government is selling its stockpiled platinum to Engelhard Minerals and Chemicals for $12 million less than the open market price?

Why was Charles Engelhard given the highly privileged position of being the chairman of the Fiftieth Anniversary Dinner of the Foreign Policy Association?

What are the hiring practices in Engelhard mines in Attapulgus, Georgia, in its plant in Berger, Arkansas, in its facilities in Wilkinson and Washington counties, Georgia?

How much money has chairman Engelhard made from his American South-African Investment Company off the sweat of black African labor? This investment company owns substantial shares in numerous gold and copper mining operations in South Africa.

Engelhard seems more interested in hippopotami than black Africans. He just gave several hundred thousand dollars for use in a South African park to prevent the extinction of hippopotami, but how much repatriated capital does he spend for the benefit of black and colored South Africans?
