**IS ANGOLA THE BEGINNING OF ANOTHER VIETNAM?**

1. The U.S. is again filling the vacuum of a colonial power which has yielded to the forces of self-determination.
2. Our initial involvement is covert - the CIA.
3. The administration, without congressional knowledge, has made a limited initial commitment of American arms and personnel.

As in Vietnam, our government stands with those who will best protect our corporate interests and profits, with no regard for the interests of the Angolan people. We are providing and supporting mercenaries, with the South African racist regime as our primary ally.

Much of the time and energy of many of us during the last ten years was spent in trying to extricate our government from the senseless destruction of life, land, spirit and values that occurred in Vietnam. We stand ready to mount this effort again if that is what is required to prevent our government from escalating us into another futile war.
