Beginning in December, 1956, the American Committee on Africa proposes to issue periodically (probably twice monthly during the current General Assembly) a bulletin on issues affecting Africa before the UN. This bulletin will attempt briefly:

1. to call attention to all issues affecting Africa which are to be considered by the General Assembly or other UN agencies;

2. to state the real issues involved and to present pertinent background material; and

3. to comment on action taken in the UN with special reference to the US position, and to make recommendations on issues under consideration.

In accordance with the ACOA's aim of interpreting the meaning of African events to Americans, the bulletin will emphasize the most important issues and those on which newspapers and other common sources of information are least adequate. All recommendations will reflect the ACOA's purpose: to support, through the United Nations, the right of all peoples to self-government and to assist the education and welfare of all African people.

The ACOA's bulletin will be started as a service for free distribution to interested persons and organizations; however, the ACOA hopes that those who consider the project worthwhile will contribute to its support. Anyone who wishes to receive the bulletin is requested to fill out the form below.

Some Issues to be Covered in this Bulletin

- Future status of the Togolands
- Algeria
- Problems of the Indians and of apartheid in South Africa
- Human Rights Covenant, section on self-determination
- Progress of non-self-governing territories; refusal of some administrators to report
- Ethiopian-Somaliland frontier
- Trusteeship reports on Tanganyika, Ruanda-Urundi, and Somaliland
- Elections to Trusteeship Council
- Southwest Africa
- International Finance Corporation, SUNFED, World Food Reserve
